JUDGING CONTEST FOR CAPE COUNTY BOYS.

Fair Directors Offer Prize For Best Boy Judge.

The Directors of the Cape County Fair have decided to give a Judging Contest for Cape Girardeau County boys, to be held on Thursday, the second day of the Fair. Cash prizes to the amount of Thirty Dollars are offered for the boys making the highest scores.

Boys from anywhere in the County are entitled to enter the contest and the management hopes to interest as large a number as possible.

On the morning of the first day of the fair, all the boys who are entered in the Contest are expected to meet at the fair grounds, the instructor in charge will provide them with score cards and animals will be scored and the different points explained in order that the boys may better understand what is expected of them in the contest which will be held the second day.

Boys interested in horses, hogs, cattle and mules will have an opportunity to use their judgement and at the same time win a very substantial premium.

The Contest will be conducted in a strictly impartial manner and, in order to make competition keener, it has been thought best to have an age limit. Accordingly, only boys between the ages of 15 and 20 years that have never attended an Agricultural school are eligible. This means an equal chance for everyone.

The Fair Management invites every boy in the County who can qualify to compete and those who take advantage of the opportunity will undoubtedly learn something worth while.

The money will be divided into 3 prizes of \$15.00, \$10.00, and \$5.00, respectively. Do not wait, but get your name in the Contest now.

Send your name, age and address to C. M. McWilliams, County Farm Adviser, Jackson, Missouri, and complete information will be furnished.

The Cost of Cruelty.

According to a recent statement by Dr. William R. Callicotte, the Colorado state superintendent of moral and humane education, the United States loses annually to dumb beasts, \$2,000,000,000. He declares that such cruelty not only causes this immense economic loss to the country, but is also one of the chief causes of crime.

"Unless children learn to feel for the sufferings of animals, we may be sure that they will never lead helpful, upright lives when they become older. They must be sensitized to suffering, and the best way to arouse the best in them is to appeal to them to aid animals which cannot aid themselves. When every child has learned to be thoughtful of these friends we will no longer need prisons and fines, for there will be no criminals."

Dr. Callicotte goes on to say that we lose, annually, \$200,000,000 from mistreatment of cattle, the same amount for not caring for horses, \$150,000,000 from giving dairy cows unsanitary quarters and poor food, and \$800,000,000 because of the destruction of birds. If proper treatment were accorded these creatures, he claims, the cost of living would be reduced 25 per cent, and we would also be able to prevent 50 per cent of the diseases which rage the country.
